New Distributor in Norway

Nerliens Meszansky working with Van der Heijden in Norway. 100 years ago, Nerliens Meszansky began supplying laboratory chemicals, equipment and instrument technology in Norway. Adapting to customer requirements such as delivering accredited instrument training courses, meeting ISO standards both for quality as well as environmental management and providing a wide range of technical service has kept them as the oldest family owned laboratory equipment supplier in Norway.

COOL-CARE® chiller preventing chocolate meltdown

Dijkstra Vereenigde have helped the company Martinez Chocolade using the COOL-CARE® chiller as part of the process packaging of chocolate. The transporter of the flowpack machine is chilled with cooled water channelled from a Van der Heijden unit into the sealing process for the foil packaging, without this cooling solution, the chocolate would melt.

Fusion with Peter Huber Kältemaschinenbau SE

The former CEO and company owner Christoph Plagens will continue to support the firm for another 3-4 years as the mentor and sales manager. Mirko Laskowski and Andrej Kepler have been appointed as the new CEOs. Both have been working in Van-der-Heijden in responsible positions so they are thoroughly familiar with the company.
